THURSDAY, APRIL 29, 1897.

Cherokee inherited eight murders with the territory taken from the old counties. A pretty bad beginning for a baby country that has no tax levy.

In Kansas and Kentucky the political atmosphere is filled with charges of bribery and all sorts of corruption. And the worst part about the matter is that there seems to be some truth in the charges.

The Tennessee Centennial opens on May 1st. President McKinley will be unable to attend the opening exercises, but has promised to visit Nashville when Congress adjourns.

Now look out for a "record-breaker" from Senator Tillman. McLaurin's recent congressional utterances are reflecting too much credit upon the South Carolina representative, and our senior Senator does not like to occupy second place.

The Lake City Times has again changed hands. Mr. Carl W. Hill, of Darlington, will succeed Mr. W. D. Shaw as editor. We have known Mr. Hill almost all of his life, and we have no hesitancy in predicting that under his management the Times will prosper.

Greece and Turkey are at war and many are the reports of victory and defeat published daily in the city papers. While the powers of Europe claim to be "neutral," nevertheless certain countries are lending aid to Turkey by not allowing Greece to occupy certain positions of advantage.

A man must be pretty well covered with moss not to be a regular advertiser. A family down in Florida lost their child, and failing to find it after two days, put a twenty-four cent notice in the paper and the next morning they were surprised to see an alligator on the steps where he had disgorged the child and then died himself.

The New York Herald, which supported Major McKinley, says: "The Democratic victories in the West reflect a universal revulsion against the new administration. Local issues contributed in some degree to the results of these elections, but they are undoubtedly due in the main to popular indignation over the conduct of the men now at the head of affairs and its paralyzing effect upon the business of the country." An honest confession, they say, is good for the soul.

Here is the kind of an obituary that a Georgia editor put up for a poor man: "Poor Jim slung his earthly garments on a limb and swam the river yesterday. He did not stand back because the water was cold, but plunged right in. He arose smiling and struck right out for the other shore where the angels were waiting for him with a finer suit than he had ever worn in this life. Jim was a poor man, but he had his subscription to his home paper all paid up, and he got there in good shape."

The Tennessee Centennial Exposition will open Saturday, with impressive and interesting ceremonies. The fact that Tennessee is the first State to celebrate its admission into the Union makes the exposition of more national importance.

We have received the first copies of the Daily Record, an afternoon paper published in Columbia by Mr. Geo. R. Keoster, formerly editor of the Columbia Register. Mr. Keoster is a well known newspaper man and a fearless writer, and under his control the new paper will no doubt prosper.

Denmark, by a system of co-operation is defeating all competitors in the production of poultry and eggs. The single fact that she sends to Great Britain and Ireland 120,000,000 eggs yearly will give some idea of the volume of her trade in this one small but lucrative and nutritious commodity.

The novel and stupendous feat of delivering 20 head of beef cattle at Circle City, Yukon, by June 1, is to be undertaken by Willis Thrope, an Alaska pioneer. Last season Thrope took 35 to Yukon clearing \$300 a head. They were the first sent to the interior of Alaska.

Congressman McLaurin's recent famous congressional speech is being read with great interest all over the country. Our State daily papers are publishing extracts from large and influential papers from every quarter of the nation, all of them speaking of the utterances in the very highest praise. McLaurin has won fame and not merely notoriety.

Sheriff D. J. Bradham, of Clarendon county, and J. William Stokes have been having some lively correspondence in regard to the latter's undelivered congressional speech opposing Congressman McLaurin's proposed amendment to the tariff. Mr. Bradham writes well and is no doubt conscientious in his opposition to Mr. Stokes, but, in our opinion, the publication of the letters which passed between the two gentlemen is but a bold bid by the sheriff for the congressman's seat in the national house of representatives.

Why take Johnson's Chill & Fever Tonic? Because it cures the most stubborn case of Fever in ONE DAY.

The fools are not all dead. One of them borrowed a newspaper the other day, and discovered an advertisement headed: "How to Make Pants Last." He sent fifty cents for instructions and in due time received the following: "Make the coat and vest first." At last accounts the simpleton was trying to recover his money by legal process.—Press and Printer.

A good joke on a school ma'am comes from Cumberland Gap, and is told by the Middlesborough (Ky.) News. A lady teacher told one of the boys to name all the Presidents, and when he replied he couldn't the teacher said: "When I was as old as you I could name all the Presidents in their order." The boy replied: "There were only a few Presidents then."

A Missouri agricultural editor in response to question; Do hogs pay? said: "A great many do not. They will take the paper for several years, and then some day it will be sent back marked "Refused."

Two years ago R. J. Warren, a druggist at Pleasant Brook, N. Y., bought a small supply of Chamberlain's Cough Remedy. He sums up the result as follows: "At that time the goods were unknown in this section; to-day Chamberlain's Cough Remedy is a household word." It is the same in hundreds of communities. Wherever the good qualities of Chamberlain's Cough Remedy becomes known the people will have nothing else. For sale by Dr. W. L. Wallace, druggist.

How To Find Out.

Fill a bottle or common glass with urine and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in relieving pain in the back, kidneys, liver, bladder and evers part of the urinary passager. It corrects inability to hold urine and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggist, price fifty cents and one dollar. You may have a sample bottle and pamphlet both sent free by mail. Mention The County Record and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

Have you seen the Columbian Encyclopedia? It is a "daisy."

BENSON.

Benson is a thriving section in the central part of Williamsburg county. Its farmers are getting along nicely at present, though it is becoming rather dry. They are fairly well up with their work, and have nothing to do but fish (fishing time, you know,) but I presume they will "come out at the little end of the horn" if they don't "stick to their bush."

The County Record has fallen into the hands of a new man and he has made considerable improvements on it; it's worth twice, if not thrice, its previous value.

BENTON.

Where Are The Blood-Hounds? Editor County Record:

Where are the blood-hounds? Representative Kennedy at the last session of the General Assembly had an act passed empowering the authorities to purchase a pair of blood-hounds, trained to track fugitive law breakers. Where are they?

Houses being burnt, robbery running riot, murder being committed—with the aid of a pair of trained blood-hounds, all this would be stopped. What are the authorities who are empowered to obtain these dogs going to do about it?

Quinine and other fever medicines take from 5 to 10 days to cure fever. Johnson's Chill and Fever Tonic cures in ONE DAY.

Attention, Veterans!

Editor, County Record: Will you please announce in your next week's paper that the veterans of Camp Pressley are requested to meet in Kingstree on May 10th at 12 o'clock, to join in decorating the Confederate graves, and to hear addresses by some of our comrades.

Under the legislation proposed by the Dingley bill the tax on diamonds would be reduced. This ought to be a great encouragement to people who work on small wages and love to have diamonds to wear at breakfast every morning.—Chicago Record.

Some of the smart set in the "Gentlemen's Literary Club" of Indianapolis blackballed Governor Mont because he is a farmer. Evidently Washington, Lincoln and Garfield would have stood a poor show had they had the misfortune to live in Indianapolis.—Savannah News.

Johnson's Chill and Fever Tonic is a ONE-DAY Cure. It cures the most stubborn case of Fever in 24 Hours.

In demanding precedence the British Ambassador shouldn't forget that when it came to compulsion, even a British King had to take a back seat in this country.—Philadelphia Times.
